

Discrete SIRV MCMC fit ... DRC measles (wave 2)

Estimating: beta | bars = observed, line/ribbon = posterior

— Posterior median

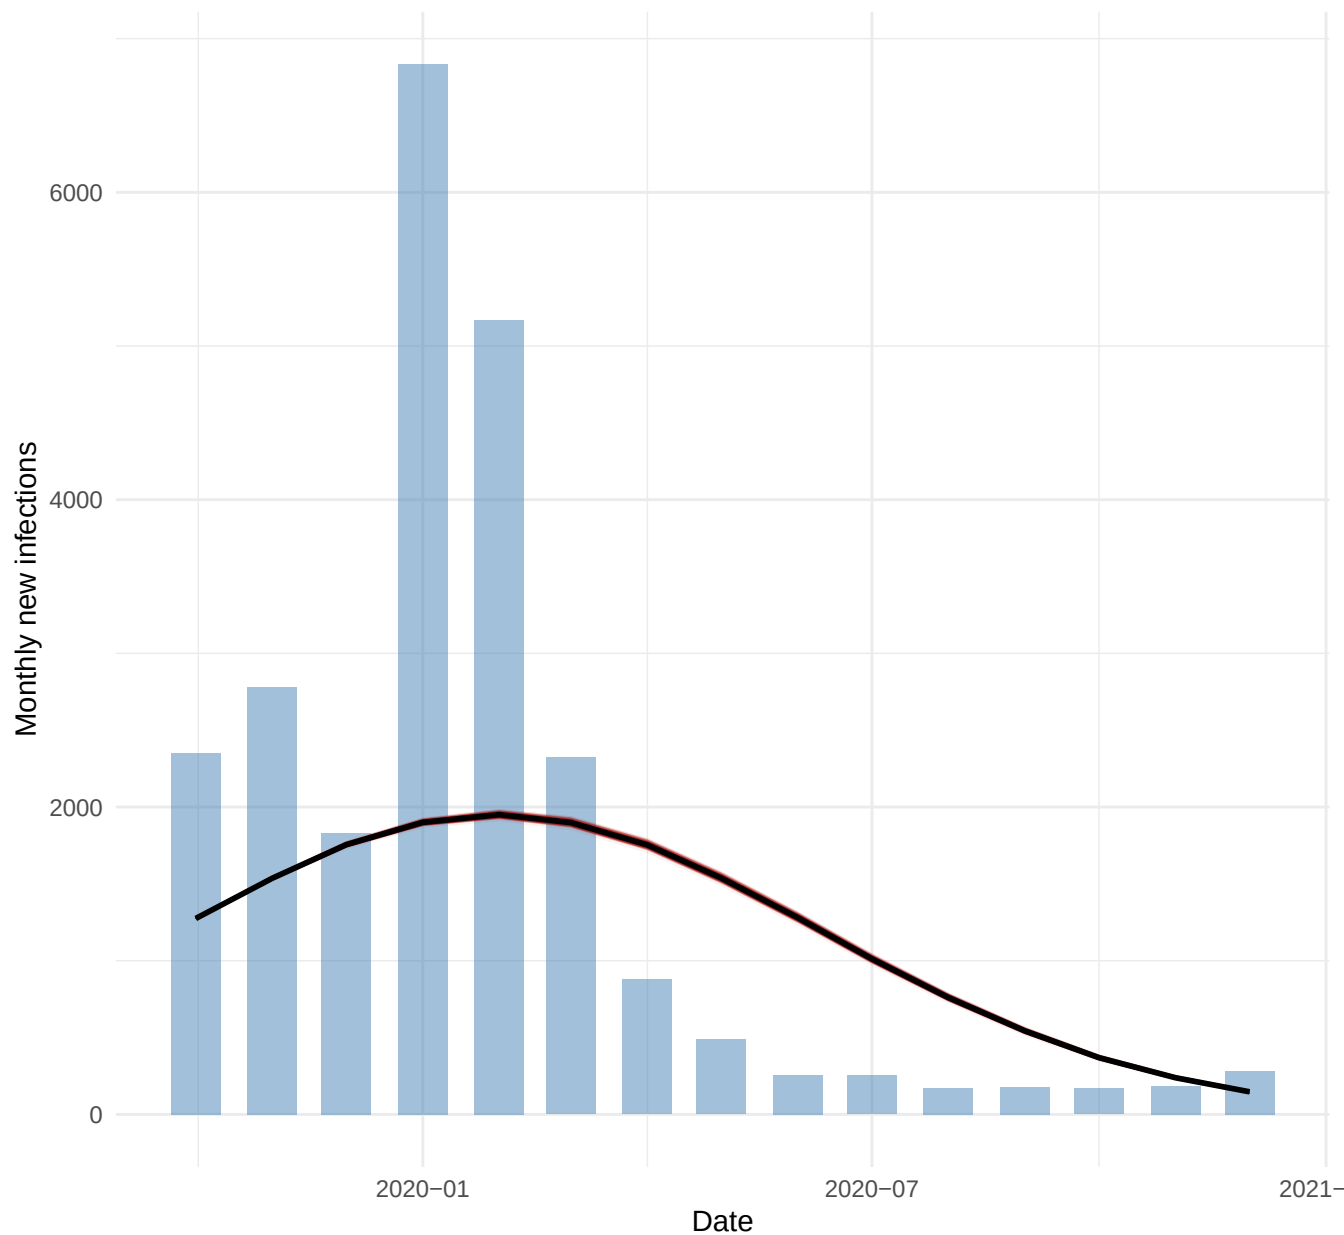

MCMC traces

Replicated epidemics from posterior draws (wave 2)

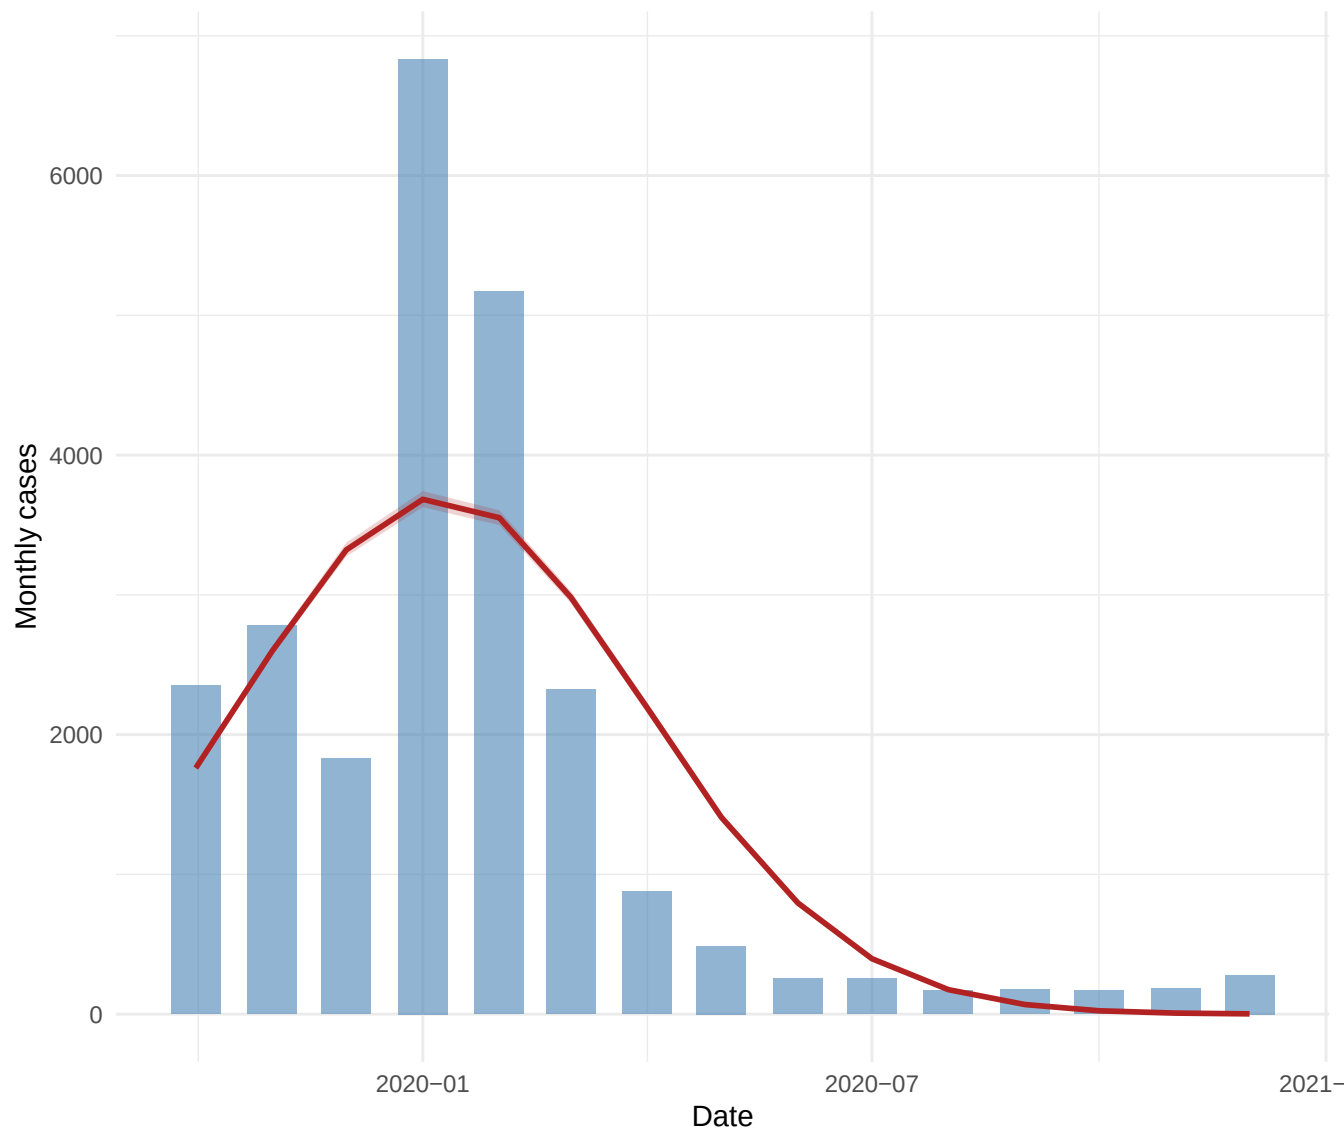

Estimating: beta | 300 of 1500 sampled (beta, theta) curves; black = posterior median

Discrete SIRV MCMC fit ... DRC measles (wave 2)

Estimating: beta + theta | bars = observed, line/ribbon = posterior

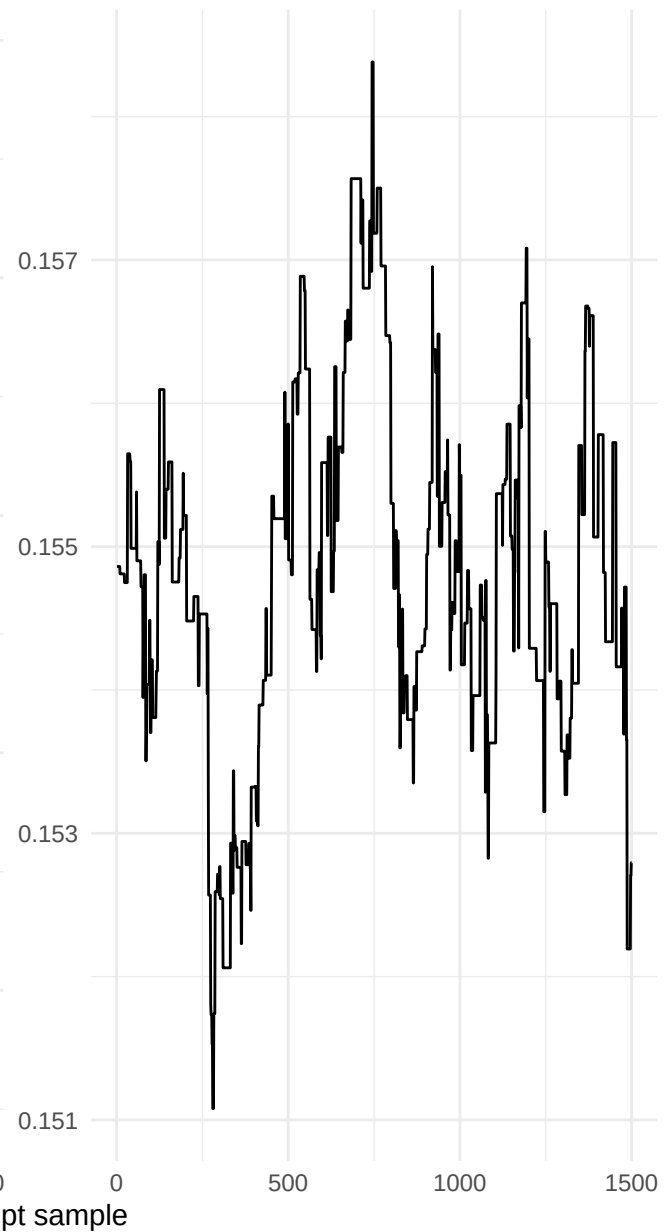

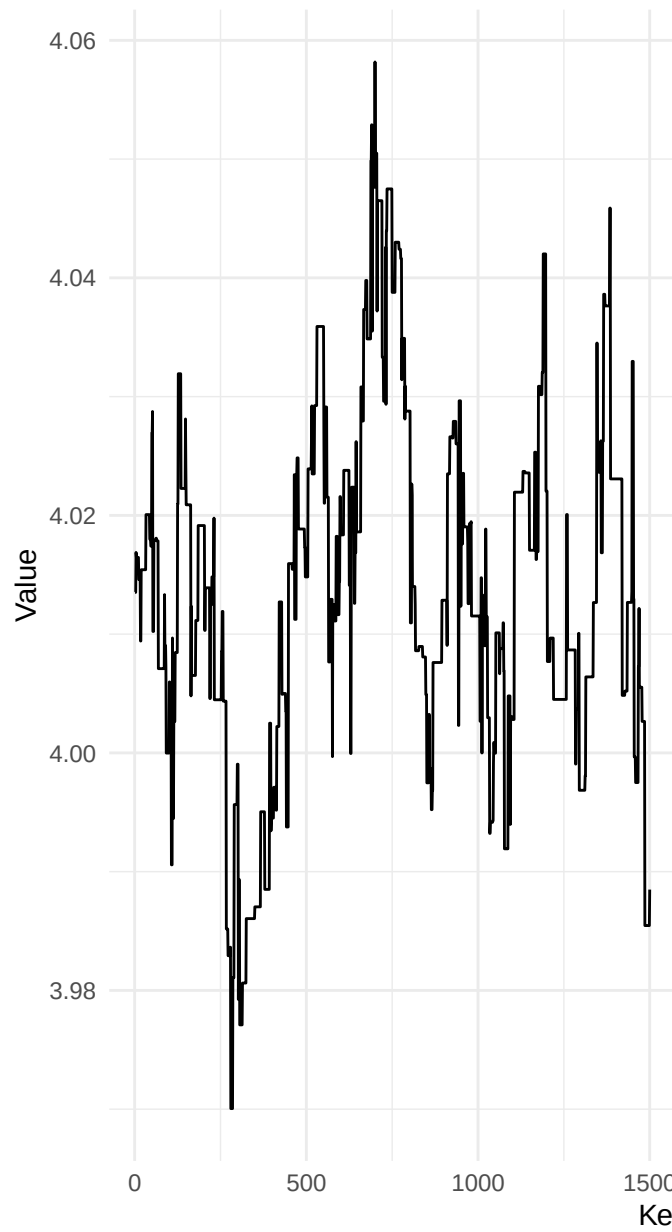

— Posterior median

MCMC traces

beta

theta

Replicated epidemics from posterior draws (wave 2)

Estimating: beta + theta | 300 of 1500 sampled (beta, theta) curves; black = posterior median
